Art Unit: 2833

Claims 1-13 are objected to because of the following informalities: in the last paragraph of claims 1 and 8 the cutting leg should be recited as severing the wire to an appropriate length, to better clarify the fact that the cutting leg does not merely partially pierce the wire. Appropriate correction is required.

Claims 1-13 contain subject matter which defines over the art of record.

The following is a statement of reasons for the indication of allowable subject matter: none of the prior art of record discloses or teaches an RJ-type connector having a conductive attachment element with a cutting leg that severs the wire to an appropriate length and creates an electrical connection between the wire and the conductive attachment element.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary F Paumen whose telephone number is 571-272-2013. The examiner can normally be reached on Monday-Thursday.
